## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, 25 and 29, drawn to An arrangement for securing a load carrier to a vehicle, classified in class 224, subclass 321.
  - II. Claims 5-9, drawn to an insert, classified in class 16, subclass 87R+.
  - III. Claims 10-16, drawn to a spacer, classified in class 16, subclass 404.
  - IV. Claims 17-24, drawn to an anchor, classified in class 224, subclass 326.
  - V. Claims 26-28, drawn to an accommodation unit, classified in class 224, subclass 315.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II-V are related as combination and individual subcombinations. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombinations as claimed for patentability, and (2) that the subcombinations have utility by themselves or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombinations as claimed because the combination as claimed fails to set forth and claim the particulars to each and every subcombination as claimed. The subcombinations have separate utility such as individual structural hardware that can be used with other preexisting roof top vehicle

carriers or any other track type device that requires that the device secured to the track be locked in position at various intervals.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
